South China University of Technology

PhD Scholarships in Food Engineering and Food Technology in South China University of Technology, China

Applications are invited for Chinese Government Scholarships for pursuing PhD studies under the supervision of **Professor Da-Wen Sun**, South China University of Technology (SCUT), China, in the area of food engineering and food technology. Applicants should have a BSc and MSc degree in food science and technology, chemical engineering, mechanical engineering or other relevant disciplines. Good track records in food engineering and technology research and experiences in scholar publications in international peer-reviewed journals will be an advantage. The deadline of applications will be 31 March 2018.

Further details about the Chinese Government Scholarship are available at:

Professor Da-Wen Sun can be contacted at fedwsun@scut.edu.cn

About Professor Da-Wen Sun

Da-Wen Sun, Professor in Academy of Contemporary Food Engineering, SCUT, and Professor of Food and Biosystems Engineering in University College Dublin (UCD), Ireland. He is a world authority in food engineering research and education, a Member of Royal Irish Academy that is the highest academic honour in Ireland, a Member of Academia European (The Academy of Europe), a Fellow of International Academy of Food Science and Technology, and a Fellow of International Academy of Agricultural and Biosystems Engineering. Results of his work have been published in more than 900 papers including over 500 SCI journal papers (Web of Science h-index = 84), with 38 papers being selected by Essential Science IndicatorsSM as highly-cited papers. He has been named Highly Cited Researcher in the last 3 consecutive years (2015- 2017) by Clarivate Analytics (formerly Thomson Reuters). Professor Sun is also the founder and Editor-in-Chief of a top SCI journal "*Food and Bioprocess Technology*".

Currently, Professor Sun is supervising 8 international students funded by CSC (7 PhD and 1 Masters) in SCUT.
